harbour must learn how to navigate life on the streets when her father doesn't return from his sailing trip

years after her brother's death, she must investigate another pilot fatality. There's just one hitch: working with her ex, Chris, she blames him for her family tragedy, but the spark of their passion never died. How can she learn to forgive when she can't forget?

The official study guide for the Workforce Management Technology Certification, containing core knowledge for time and labor management, the worldwide standard for the time and labor management technology profession. Workforce Asset Management Book of Knowledge is the official guide to the workforce asset management certification, establishing a common lexicon within the profession for talking about workforce management and systems. This essential guide is designed to establish a body of generally accepted and applicable practices and standards within the industry, includes contributions from leaders in the field, covers everything from vendor and product selection to implementation, planning, and execution, system design, testing, and change control, financial analytics, fundamentals of scheduling people against workload and skill sets, and how to use these systems to manage labor costs and productivity. Body of Knowledge is focused on workers and technologies for every industry and every type of employer, designed around timekeeping and labor scheduling technologies, with contributions from leaders in the field. This book expertly covers the knowledge, practices, regulations, and technologies within the domain of workforce management systems. It provides the body of knowledge for managing a workforce using time and attendance systems, labor scheduling, productivity, staffing, budgets, workforce software applications, or data compensation and benefits for payroll and human resources.

You can measure practically anything in the age of social media, but if you don't know what you're looking for, collecting mountains of data won't yield a grain of insight. This non-technical guide shows you how to extract significant business value from big data with Ask Measure Learn, a system that helps you ask the right questions, measure the right data, and then learn from the results. Authors Lutz Finger and Soumitra Dutta originally devised this system to help governments and NGOs sift through volumes of data. With this book, these two experts provide business managers and analysts with a high-level overview of the Ask Measure Learn system and demonstrate specific ways to apply social media analytics to marketing, sales, public relations, and customer management using examples and case studies.
